

ONLINE EVENT INVITATION

ONLINE RACGP Accredited Activity

Need to go again! A Review of the Approach to Chronic Diarrhoea

PLUS: how to access to fast, no-gap care, from treatment of irritable bowel syndrome to endoscopy.

Presented By Dr Kashif Sheikh
Chaired by Dr Sharon Thomas

Chronic Diarrhoea is a common but challenging clinical scenario. This event discusses an evidence-based approach to diagnosing and treating patients with chronic diarrhoea and recognising when to refer for an endoscopy.

Event Date Thursday 01 October 2020

Time Live-streamed 6.30pm (sharp) – 8.00pm

Register Online: <http://bit.ly/GCPH-Oct1-CPD>

Learning Outcomes

Attendees will be able to:

1. Demonstrate how a diagnostic work up is undertaken
2. Describe the diagnostic yield of tests used to work up a patient with chronic diarrhoea
3. Differentiate the different diagnosis of an adult patient with chronic diarrhoea
4. Identify red flags which would warrant endoscopy

Dr Kashif Sheikh
MBBS, MRCP, FRACP
Gastroenterologist

Dr Kashif Sheikh offers **no-gap care** for private patients and specialises in:

- General gastrointestinal disorders
- Diagnostic/therapeutic gastroscopy and colonoscopy
- ERCP
- Acute and Chronic liver diseases.

This education is a CPD Activity under the RACGP CPD Program
