

Dr Annabelle Stabler

Diagnosing DDH:

A harness in time saves a hip replacement in their prime
2021 CPD Activity for GPs ****FACE-TO-FACE EVENT****

- Event Date** Thursday 11 February 2021
- Time** 6.00pm registration & Dinner seminar from 6.30pm – 8.00pm
- Venue** Gold Coast Private Hospital, Seminar Room 1-3, 14 Hill Street, Southport (includes parking, dinner & refreshments)
- Learning Objectives**
- 1) Identify babies at risk for developmental dysplasia of the hip (DDH) and the older child at risk of a missed dislocation or dysplasia.
 - 2) Describe how to clinically screen for DDH.
 - 3) Determine which children should be sent for further investigations such as an USS or Xray.
 - 4) Recognize when to refer to Paediatric Orthopaedics for assessment.
 - 5) Explain the rationale and principles of treatment to families with a baby or child you are referring with suspected DDH.
